Use of Battery powered Vehicles

In light of the pressing need to preserve the natural environment of Nainital, the city of lakes, it is earnestly requested that all members of our university community prioritise the use of battery-powered vehicles.

Nainital's ecological stability is under threat, particularly during the summer season when the influx of tourists leads to a surge in vehicle traffic and pollution levels. By embracing battery-powered vehicles, we can significantly mitigate our carbon footprint and contribute to the conservation of our pristine surroundings.

As stewards of the environment, it is incumbent upon us to raise awareness among our students and faculty about the importance of sustainable transportation choices. Let us unite with the city administration in combating environmental degradation and safeguarding the beauty of Nainital for generations to come.

Your commitment to this cause is invaluable.

Joint Director
