Purpose of the event: Awareness of the environment can provoke change in consumption patterns and environmental policies for a cleaner and sustainable lifestyle. It is a great opportunity to learn about environmental challenges and how we can contribute to protecting and preserving our planet for future generations. With this motive, Department of Botany, D.S.B. Campus, Kumaun University, Nainital has organized a 3-day program to commadore awareness and actions for protecting our environment.

Background information: World Environment Day (WED) is celebrated on 5th June every year to raise awareness on environmental issues such as pollution, climate change, biodiversity loss, water crisis, food security, etc. Each year there is a specific theme chosen to focus attention on a particular environmental concern. In 2023, WED was hosted by Côte d'Ivoire and supported by the Netherlands and the theme was focus on solutions to plastic pollution under the campaign “**Beat Plastic Pollution**”.

Conclusion

The celebration of World environment day at the Botany Department, DSB Campus, Nainital was a resounding success. The event brought together students, faculties and environmental enthusiasts to reaffirm our collective commitment to preserving and protecting our planet. Through engaging activities, insightful posters and slogan competition, participants gained a deeper understanding of environmental challenges and the importance of sustainable practices.

The plantation and cleanliness drive highlighted the practical steps we can take a tangible impact on our environment. Moreover, the expert talks provided valuable insights into current environmental issues and innovative solutions. Together we can contribute to a healthier, more resilient planet for future generations.
